2007 New Product

The SUN TRACKER® Party Hut® 30 – Just one look is all it takes

One walk-through on a SUN TRACKER® Party Hut® 30 will show you why SUN TRACKER is the world's best-selling brand of pontoon boats.

Performance and comfort features, not to mention stylish appearance and rugged construction, will have the whole family saying: "Let's go to the lake!"

The Party Hut 30 has been a top-selling model in past seasons. It's even better this year and has been completely redesigned for 2007. A new extended hardtop with access hatch and ladder, as well as a fence around the roof top, make even more room for sunbathing or sightseeing.

Drop-down curtains add privacy when desired. There is a stainless steel, rail-mounted barbecue grill, a dining table that can be fastened in place in two locations, an on-demand water pump, an alcohol-fuel stove and plenty of plush seats and lounges upholstered in durable vinyl that is sun- and water-resistant. There's even flexible lighting in the ceiling for those cool evenings on the water.

An entertainment center with AM/FM/CD and Sirius radio capabilities make it easy to play your favorite sounds. SUN TRACKER Regency features add comfort and convenience wherever you turn aboard the Party Hut 30.

The SUN TRACKER Party Hut 30 can be ordered with either an ultra-quiet and powerful Mercruiser inboard engine or with the popular outboard configuration, using the extended motor pod, for an even roomier aft-deck area.

It all rides on heavy-duty, multi-chamber, aluminum flotation logs that will carry passengers safely and comfortably on the lake.

For more information on the SUN TRACKER Party Hut 30 or other SUN TRACKER models, contact your nearest SUN TRACKER dealer or visit the website at www.suntrackerboats.com. The website features a convenient dealer locator.
