2007 New Product

It's a long shot! - From bow to stern on the SUN TRACKER® Mega Hut® 36

It's the new flagship of the best-selling line of pontoon boats in the world.

At 10 feet wide and 36 feet in length, the SUN TRACKER® Mega Hut® 36 has room for the whole family. It's the biggest pontoon boat in the SUN TRACKER lineup for 2007.

Features and options are so numerous they're downright mind-boggling. Keeping with the long heritage of SUN TRACKER the Mega Hut 36 is loaded with standard features including wet slide, air conditioning, drop curtains, and a 3000-watt generator to power the air conditioning on those hot mid-summer days.

A fully-enclosed head and changing room with window and a portable toilet are additional amenities that really set this big rig off from the rest of the field.

The hard-top roof shields the cabin area beneath and adds even more space upstairs for sun-bathing and sightseeing. A microwave and refrigerator make it easy to prepare sumptuous meals or to store and prepare lots of snacks for a boat-load of hungry swimmers and skiers. There's also a practical galley counter and cabinet storage.

An upgraded stereo system with a built-in MP3 plug, Sirius® radio capabilities and a CD player allows you to find your favorite tunes on the air or to play your own.

There's plenty of space on the wide-open deck for a dinette and a barbecue grill.

Plush, swiveling, bucket seats, lots of luxuriously upholstered lounge and bench seating, interior lighting for evening cruises or over-nighting on the lake, plus ample storage at every turn, give passengers lots of comfort options for relaxing or napping,

And it all rides on a deck coated with non-skid surfaces and stain- and UV-resistant marine carpet. The deck lies atop a substructure engineered for strength and durability. Three 26-inch-diameter, multi-chambered, flotation logs provide stability, even on rough water. Power options include outboard or I/O.
